Having examined Dr. Pratt's newly invented nipple shield, and warnessed its practical application, I take creat pleasure in recommending it as decidedly superior o any thing previously known. It constitutes a periect emaily for that distressing malady, sore nipples, a dis-ase which so frequently afflicts norsing women.

THOMAS SEWALL. Philadelphia, January 13th, 1834.

Dr. Elijah Pratt; Dear Sir. As I feel it a matter of much public importance, to possess a means for lessining the terrible sufferings from "sore nipples," I have much pleasure in seing able to say that the shield for the preventing and cure of this malady, is better adapted to the purpose than any I have heretofore seen. In the two or three instances I have known them to be used, much satisfaction has been expressed, and have no hesitation to believe it will generally succeed. I am so well persuaded of this at this moment, that I cannot forbear to express a wish that our City, through the various apothecaries, may-be supplied with them.
